Nationwide

Building Society

Why choose Nationwide?

As the world's largest building society, we've been helping people make the most of their personal savings for more than 130 years.

We could help you make the most of your business savings too.

The Nationwide difference

Whether it's through the products and services we provide, the charities and causes we support or the communities we serve, we're always striving to do the right thing on behalf of our customers. And if you decide to save with us, here are just a few of the things you could benefit from too:

- A choice of savings accounts that are available to a range of businesses and organisations, including the charitable and educational sectors.
- Dedicated support for your business, with tailored service delivered by our UK-based telephone Business Savings team and Regional Relationship Managers.
- Strong credit ratings, making us one of the UK's strongest high street financial institutions.
- Regular statements that allow you to keep track of your savings – giving you the ability to adjust and adapt, should your business goals change.

Plus, because we're a building society, we're free to reinvest more of our profits to improve the products and services we offer. In fact, we're already reinvesting 1% of our pre-tax profits for the benefit of our customers.
